“Fast, efficient service for a GP appointment. The reception staff were lovely and the GP was very helpful - fab service!”

Kingsbridge Patient

“This was my first consultation with the GP and it was excellent. He made me feel welcome and immediately put me at ease. He gave me enough time to explain the reason why I was there. He was very thorough and I felt that he understood my concerns completely. I was very grateful for his advice and he was able to reassure me that some of my worries were unnecessary. I would thoroughly recommend this service to anyone who has concerns about their health and wellbeing.”
